Office Action Summary	Application No. 10/502,227	Applicant(s) INOKAMI, KIYOTAKA	
	Examiner Patrick D. Niland	Art Unit 1714	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 4-7 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 4-7 have not been further treated on the merits.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-3 and 8-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. No. 5541251 Bontinck et al. in view of US Pat. No. 5173300 Burleigh et al. and US Pat. No. 3536663 Oertel et al..

Bontinck discloses the instantly claimed polyurethane emulsion of a polyurethane made with components B through E but no component A. See the abstract; column 3, line 64 through column 8, line 42. Column 12, lines 64-66 discloses the use of antioxidants but not those of the instant claims. It would have been obvious to one of ordinary skill in the art at the time of the instant invention to use the instantly claimed components A of claims 1-3 and 8-9 in the polyurethane of Bontinck because Buleigh and Oertel discloses chemically incorporating such antioxidants into polyurethanes and the incorporation of such antioxidants in the polyurethane of Bontinck would have been expected to give the antioxidizing the patentee clearly desires from their use of antioxidants in their examples with the benefits of chemically incorporating them of each of Burleigh and Oertel as well as they cannot bleed out if they are covalently bonded to the polyurethane. Oertel's antioxidants and amounts thereof of their abstract and column 3 fall within the scope of the instant claims 1, 3, and 8. Burleigh's antioxidants of their abstract;

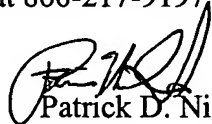

Art Unit: 1714

column 2, lines 60-68; and column 3, lines 1-15 fall within the scope of the antioxidants of each of the instant claims.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick D. Niland whose telephone number is 571-272-1121. The examiner can normally be reached on Monday to Thursday from 10 to 5.
